to register.

The High Level Panel for a Sustainable Ocean Economy will launch its *Transformations for a Sustainable Ocean Economy: a vision for Protection, Production and Prosperity* on 2 December 2020. The Transformations outline how the world can make a rapid transition to a sustainable ocean economy.

The 14-nation Ocean Panel is the only ocean policy body comprising serving world leaders. Established in 2018, the Ocean Panel is building momentum towards a sustainable ocean economy where effective protection, sustainable production and equitable prosperity go hand in hand. Learn more at: www.oceanpanel.org.

An expert panel webinar will be held on 3 December to mark the launch. Leaders in sustainable seafood, Indigenous guardianship and equity, ocean and atmospheric science, and sustainable finance will join the Minister for the Environment, the Hon Sussan Ley MP, to discuss opportunities and challenges for Australia's sustainable ocean economy.

We are honoured to have the Hon Scott Morrison MP, Prime Minister of Australia and Ocean Panel member, open the webinar.

Opening remarks

- The Hon Scott Morrison MP, Prime Minister of Australia
- Dr Russell Reichelt, Australia's Ocean Panel Sherpa

Moderator

- Phil Coorey, Political Editor, Australian Financial Review
